

Serial No.: 10/603,947
Amendment Dated: February 27, 2006
Reply to Office Action of January 6, 2006

AMENDMENTS TO THE SPECIFICATION

Please replace paragraph [0096] with the following rewritten paragraph:

[0096] Such undulating protrusions 1106 may be formed from an aluminum strip with a thickness T of about 0.012" and a width W of about 0.30". The undulations 1104 in this example have a height H of about 0.55" and a spacing S between the protrusions 1100 of about 0.05". Using these values for the width W , the thickness T , and the height H yields an aspect ratio of about 8:1.
